#### FOREIGN MARKETS. Liverpool Provision Market.

Liverpool Provision Market.

The demand for Beet has not improved; the sales are on the merest retail scale, and holders would freely give way in price to make progress with quantity. There has not been so much done in Pork this week, but the gradually decreasing stock gives holders confidence, and the market is firm. Owing to the light stock of Bacon now left, the transactions for the week have not been extensive; full prices continue to be made, and the little in first hands smattapidly disappear. An arrival of Shoulders gives a present supply. Hams attract rather more attention. The inquiry for Lard has scarcely been so animated; the sales, however, are over 100 mms at fully last week a prices. There has been a fair demand for Cheese, and the late arrivals move off pretty freely, but a greater difference in price between time and ordinary descriptions is made than in former years. Tallow is 6d \$\mathscr{P}\$ cwt. lower. In Linseed Cake no variation.
